

Country Work Requirements for Orthoptists

COUNTRY	REQUIREMENT	WEBSITE
FULL MEMBER COUNTRIES		
Australia	<p>The Australian Orthoptic Board (AOB) is the registration body for orthoptists within Australia, for both local and international orthoptists.</p> <p>The AOB is a separate entity to Orthoptics Australia (OA) which ensures professional standards are upheld by establishing regulations and standards for all orthoptists.</p> <p>While registration with the AOB is not compulsory to practice, orthoptists are required to register with the AOB according to legislation regarding the practice of refraction, prescribing of optical lenses and ultrasonography. This also applies to legislation regarding the administration of drugs and poisons. Orthoptics Australia thereby encourages all orthoptists to register with the AOB and to participate in the Continuing Professional Education program (CPE) to gain credit towards a Certificate of Currency. Many public and private health institutions employing orthoptists also now require that orthoptic staff members are registered with the AOB, as do Australian private health funds. Applications for registration must be updated every two years.</p>	<p>Australian Orthoptic Board (AOB) www.australianorthopticboard.org</p> <p>Australian Orthoptic Association (OA) www.orthoptics.org.au</p>
Austria	<p>To work as an orthoptist in Austria, you need to apply for a license at the health ministry.</p>	<p>The weblink for the Health Ministry is in German (English is not available):</p> <p>http://www.bmg.gv.at/home/Schwerpunkte/Berufe/Anerkennung/Anerkennung_einer_auslaendischen_Berufsqualifikation_in_einem_sonstigen_nichtaerztlichen_Gesundheitsberuf</p> <p>For more information on orthoptics in Austria, you can contact Orthoptik Austria: http://www.orthoptik.at/Neuigkeiten/</p>

Country Work Requirements for Orthoptists

<p>Netherlands</p>	<p>Requirements to work as orthoptists in the Netherlands are well formulated by law and similar for all health care professionals.</p> <p>There is a difference for people from the outside and inside the European Economic Union (EU and Norway, Iceland, Liechtenstein and Switzerland):</p> <ul style="list-style-type: none"> • Requests from orthoptists within the EEU are evaluated by a committee of Dutch Orthoptists. Tests of the Dutch language and professional (orthoptic) knowledge are not required. The committee decides if the diploma meets Dutch standards and can require a placement for practical training or additional education (no longer than 3 years). • Requests from orthoptists outside the EEU are evaluated by a committee of Dutch Orthoptists and are required to do a “General Knowledge and Skills test” (including ICT, professional (orthoptic terminology), basic English) and a Dutch language test. Test must be passed and the committee decides if the required standards are met. If not, additional or complete education is prescribed. 	<p>For more information, you can go to the Orthoptistes de la Communauté Européenne (OCE) website: http://euro-orthoptics.com/oce/</p> <p>or you can contact the Dutch Orthoptic Association: Nederlandse Vereniging van Orthoptisten (NVvO) www.orthoptisten.info</p>
